Vitamin D, min (IU/lb.)	3,000	3,000	3,000
Vitamin E, min (IU/lb.)	25	25	25

FEEDING DIRECTIONS

Blueprint Access Light Calf Grower

Thoroughly mix Blueprint Access Light Calf Grower with whole dry shelled corn according to the below table. Make ration changes gradually. A constant supply of clean, fresh drinking water is necessary for optimum results.

Cattle Weight, lb.	Concentrate, lb.	Grain, lb.
175-250	800	1200
250-350	650	1350
350-450	500	1500

Blueprint Access Grower 38:12

Mix 300 pounds Blueprint Access Grower 38:12 with 1700 pounds of whole dry shelled corn. Offer this mix to growing feedlot animals. Animals not currently on a high grain ration need to be gradually switched to this mix over a period of 2 to 4 weeks. Feed this mix along with a source of roughage to promote rumen function and health. Provide access to clean, fresh water at all times.

Blueprint Access Finisher 38:18

Mix 200 pounds Blueprint Access Finisher 38:18 with 1800 pounds of dry whole shelled corn. Offer this mix to finishing feedlot animals. Animals not currently on a high grain ration need to be gradually switched to this mix over a period of 2 to 4 weeks. Provide access to clean, fresh water at all times.

CAUTION

This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for beef cattle and is not intended for other species.

Follow label directions. Adding higher-than-recommended levels of this supplement to feed containing added selenium is not advisable.

Hubbard Feeds does not use restricted-use proteins in products and follows both FDA and state requirements regarding the use, handling and storage of restricted-use proteins.
