

Blueprint® Creep 16 is a supplement for nursing calves to reduce weaning stress and increase weaning weights.

ABOUT THE PRODUCT

- Designed for calves with exceptional growth potential
- Most beneficial when fed during the late summer and fall seasons
- Increased protein levels allow calves to reach their genetic potential, enhance digestion and nutrient intake while promoting their natural defenses

NUTRIENT ANALYSIS

	Creep 16	Creep 16 HWT

Phosphorus, min.	0.4%	0.4%
Salt, min.	0.7%	0.7%
Salt, max.	1.2%	1.2%
Potassium, min.	1.0%	1.0%
Vitamin A, min.	3,000 IU/LB	3,000 IU/LB
Vitamin D, min.	300 IU/LB	300 IU/LB
Vitamin E, min.	3 IU/LB	3 IU/LB

FEEDING DIRECTIONS

Blueprint® Creep 16 is a feed for suckling calves from birth to weaning. It is recommended to be fed free-choice to suckling calves in a creep feeder. Calves will typically consume 0.75–1.5% of their body weight daily. Overconsumption (greater than 2% body weight) may result in digestive disorders.

Blueprint® Creep 16 HWT is a feed for suckling calves from 500 pounds to weaning or when intake of creep feed exceeds 8 to 10 pounds per head daily. It is recommended to be fed free-choice to suckling calves in a creep feeder along with forage or pasture. Calves will typically consume 1.5 - 2.0% of their body weight daily. Over consumption (greater than 2% body weight) may result in digestive disorders.

For best results, never allow creep feeders to become empty. Remove spoiled feed regularly.

Provide clean, fresh water at all times. Feed plain salt free-choice.

CAUTION

This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for beef cattle and is not intended for other species.

Follow label directions. Adding higher-than-recommended levels of this supplement to feed containing added selenium is not advisable.

Hubbard Feeds does not use restricted-use proteins in products and follows both FDA and state requirements regarding the use, handling and storage of restricted-use proteins.
